PRINCIPAL’S REPORT

- Over the last few weeks we have had an online survey available to gain some parental feedback to support the recommendations being compiled as part of the school review. We have had only five responses to the online survey, so this week we have included a paper version in the newsletter. Please complete the paper version and return to school as soon as possible. Your comments will be valued.

- The end of term two is coming very quickly. This means student reports and parent-teacher interviews for primary parents. The P-6 interviews will be held on the last day of term two. This will be a pupil free day for P-6 students.

If you have any concerns or issues that you wish to discuss with me please feel free to give me a call at school (55983381) or on (0407 345 324)

ASSISTANT PRINCIPAL REPORTS

Uniform: WHAT IS SCHOOL UNIFORM? A school uniform is an **outfit**—a set of standardized clothes selected and approved by our School Council and the expectations are outlined in our dress code policy (currently under review). Our school is identified by its school uniform and most students demonstrate pride in their school by wearing the correct uniform. By wearing school uniform correctly, students demonstrate a sense of belonging to our school community. The cooler months are here; please ensure your child has the correct warm school uniform. Second hand uniform items can be purchased from the school or brand new items can be purchased from our local distributor, Jo Jo’s.

As displayed in above photo (school foyer) - Winter school uniform is:

**Pants/shorts**

- Navy or grey cords 720 brand-
- Navy blue flares (DJC, Stubbies or Face Off brand)
- School Shorts — Plain grey cord 720 brand

Covered (heel and toe) black leather sandal or T Bar style (not permitted in technology classes)

Australian Defence Force

Community/Careers partnerships: As part of our year 10 Home group course we have been fortunate enough to have both local community members and external agencies present their career knowledge to our Year 10 students. Last week (pictured above) we had some representatives from The Australian Defence Force deliver an excellent presentation. Thank you to all of the local community members who have contributed to this program this semester; your knowledge is invaluable.

And remember: ‘Once you replace negative thoughts with positive ones, you’ll start having positive results.’ Anon.

SEAN FITZPATRICK
ASSISTANT PRINCIPAL

Planning for our P-6 parent teacher interview day on June 29th is well underway. All families will be offered the opportunity for an interview with their child’s teacher on the last day of term. To make this possible there will be no school for students in grades prep to 6 on the 29th June. A time allocation system has been used to enable families to move between interviews with as few delays as possible. Interviews will be conducted from 9am until 2:30pm. If you are unable to attend your allocated time you are asked to contact the school so that other arrangements can be made. By holding these interviews after written reports have been distributed parents are able to clarify any queries they may have. Please look out for your individual time to be sent home next week.

Well, we managed 68% first returns for our ‘target head-lice weekend’ which is an improvement on our last 62%. However, not really enough for our eradication campaign to be successful. I have once again sent out individual letters to those who have not returned their slips and would ask for anyone who receives one to PLEASE do your bit for our school.

The visit from the ‘Camp Quality Puppets,’ last week, was a wonderful opportunity for our students to consider how they can support the many members of our school community who are currently undergoing, or have family members undergoing, cancer treatments. The puppet show offered children information about both the treatments, and the side effects of them, for people currently faced with this challenge. Some very important questions were asked by our students to help them gain understanding of this situation.

5-8 SUB-SCHOOL REPORT

• Congratulations to Nathan Gillingham for being awarded as the overall winner of the ‘Letters from the Heart’ competition. I was honoured to read all of the letters submitted by the year 5 and 6 students. They certainly brought a tear to the eye. All winners and letter recipients will be invited to a very special morning tea early next term. Nathan was awarded with a special certificate by two of our Student Leaders, Rhys Kensit and Toni-Mae Sutherland.

• Year 5 & 6 students have embarked on their ‘Healthy Lifestyles Program’. Students will focus on healthy bodies and minds by keeping fit and making healthy eating choices.

• Congratulations to Ahliya Harris and Abbey Ralph who were awarded first and second prizes for their speeches at the recent Warrnambool Eisteddfod.

• Well done to all year 7 & 10 Peer Support students on their very successful bake sale last Wednesday. Proceeds will assist with a special day out in Geelong for the students involved.

• Thank-you to the prospective students and their parents who attended the Timboon P-12 Open Night. This was a fabulous opportunity for families to discuss with staff the educational expectations during the 7 to 12 years. We are now taking enrolments for year 7, 2013.
rep students have been continuing with their discussions forces such as
trade 3 students have been at levers and pulleys. This will involve th-
day. This week the students designed gliders as part of their study.
rep students are measuring thrust, designing their gliders as they did, talking abou-
duery. Our grade 3 and 4 students have been beginning their investigations
the sound that this letter makes and words that begin with P, p. In maths this week, the preps are measuring capacity.
Grade 1 and 2
Our grade 1 and 2 students are continuing with the topic of ‘Fats and Sugars’ from last week. Tomorrow, the students will be visiting an exercise class with Carly Dennis, to see what we need to do to keep our bodies healthy and fit. In Maths this week, our grade 1 students have been involved in subtracting with numbers up to 20. Grade 2 maths involves counting up to 1000; especially focusing on what happens when we change over hundreds (199, 200, 201 etc.).
Grade 3 and 4
Our grade 3 students have been finishing off their work on forces this week, by learning about magnets and how simple machines work. This has included looking at levers and pulleys. Our grade 4 students have been beginning their investigations into night and day. This will involve them learning about our solar system and how the movement of Earth creates day and night. This week the students designed gliders as part of their homework activities. The students discussed their reasons for designing their gliders as they did, talking about forces such as thrust, lift, gravity and drag. We enjoyed test flying our gliders and comparing the flights of different designs.
School Website
If you have a moment, please visit our school website at www.timboonp12.vic.edu.au. We have recently added some new articles and photos from our P-4 Sub School. We have also included a short survey for parents to complete, if you have the time. We value your feedback and this survey will enable you to share your ideas and feelings with us, in regard to the programs that we offer in our P-4 Sub School. I am looking forward to viewing your responses.

Edustar tool of the week. Edustar is a free suite of tools provided through all Netbooks through the Department of Education. Debut Video Capture is an easy-to-use video recorder program that can capture video files directly onto a Netbook.

7 ways to use Debut in your classrooms:
1) Producing ‘how-to’ demonstration and learning and teaching videos clips by recording screen movements (including audio) to video.
2) Creating your own videos with captions and other effects from your webcam or other video input device.
3) Recording video memos and email to others such as classmates or teacher, and capturing instant snapshots from your videos to save them as JPEG files to be inserted into other software.
4) Debut for digital diaries. Ask students to use Debut to create digital diaries – this could be done at school or at home. You could ask a range of questions for students to respond to in their diaries.
5) Debut for digital diaries. Ask students to use Debut to create digital diaries – this could be done at school or at home. You could ask a range of questions for students to respond to in their diaries.
6) Ask students to use Comic Life to storyboard a short story. Student could then use Movie Maker, or their Netbook webcam and Debut, to make their story into a movie. 7) Discuss how closely their movie corresponds with the storyboard. Tip: When using Debut for the first time remember to set the file path so you know where to find your footage 😊

TECHSPOT

Starting this term we will be running 'Tech Tuesday', which will be a chance for interested community members to come to the school to ask questions to our school's Technician (Terry).

Terry will be available from 3:45 on Tuesdays until about 4:30 in the Library.

You may want to know how to back up your files, or connect a home network. Maybe advice on what computer to buy for home; Terry will try to answer all questions asked.

You may bring laptops or tablets with you, or just come along for a cuppa and a chat.

There is no charge for this information session.

You may wish to assist Terry to answer your questions by emailing him earlier (some problems may require some research).
