PRINCIPAL'S REPORT

- Andrea Thompson, former staff member and parent has kindly organised a piano recital to take place at our school. The Borge Duet will be performing at our school hall at 7:30pm on Friday 7th June. You will find more details of this event in the newsletter.
- Our web page has been constantly evolving. Many of the staff are adding new pages that contain student work and information. If you have not been to the web site for a while, make sure you pay it a visit. If you are looking for some specific information use the search function.
- Over 100 people subscribe to the Newsletter via the web page. It is one way to make sure you see the newsletter each week and it also saves another tree.
- Thank-you to all the parents, grandparents and friends who crammed into the P-6 classrooms last week as part of Education Week. It was wonderful to see so many people celebrating and supporting our students in their education journey.
- We also had the first of our Year 6-7 Transition Days. It was great to see our Year 6 students enjoying the activities presented. It was a pleasure to be able to show a group of parents around the school and talk about the many various programs we offer across the school.
- I am pleased to be able to report that The Library is back up running to its full capacity. Thank-you to those people who supported the book fair.

If you have any concerns or issues that you wish to discuss with me please feel free to give me a call at school (55983381) or on (0407345324) Email: timboon.p12@edumail.vic.gov.au

ROSALIE MOORFIELD
PRINCIPAL

Congratulations:
To our Warrnambool Eisteddfod performers who have not only enjoyed their experience but performed very well. The Year 3 and 4 students participated in choral speaking, the Year 5, 9 and 10 students participated in public speaking. 3V won their section of the choral speaking and we have had some winners and honourable mentions in the public speaking.
To Zavier Mungean who is competing at the District Cross Country today.

ASSISTANT PRINCIPAL REPORTS

Year 7 2014-Transition:
The first stage of our Year 6-7 Transition program kicked off last Friday with our Year 6 students participating in a “Tastes of Secondary Education” day. On June 12th Year 6 students from Nullawarre and Simpson primary schools will visit our school to experience a Taste of Secondary Education. The next Phase of our transition program is our Timboon On Display - Open Night on Wednesday June 19th at 7:00pm (see flyer in this newsletter edition for details).

School-based assessment and the GAT (Information for students undertaking Unit 3/4 study, Year 11 & 12)

The VCAA applies statistical moderation procedures to all school-based assessments to even out the differences in marking standards that may occur from school to school. This is to ensure that the final results are comparable across the state and are fair to all students.

The statistical moderation process compares the level and spread of each school’s assessments of its students in each study with the level and spread of the same students’ scores in the external examinations, and adjusts the school scores if necessary.

In some studies, statistical moderation uses students’ GAT scores as well as their examination scores. This is done where it gives a better match with schools’ school-based assessments throughout the State. The examination scores will always have the major influence in the statistical moderation calculations.

There are two key principles in whether and how the GAT is used.

1. The GAT components are only used if they make the moderation process more reliable in the sense that the external scores are a better predictor using the GAT scores than without them. The statistic R-square is used to measure the increase in reliability.
2. When used, the GAT components must not exert too much influence on study scores. A variety of tests are performed to determine the influence of the GAT, of which one test is that no more than 5% of study scores should vary by more than 2. To achieve this, the influence of the GAT is kept to the minimum optimal level.

The decision on whether to use the GAT is made separately for each school-based assessment.

The General Achievement Test is on Wednesday June 12th
Timboon Uniting Church Hall

Uniform reminders:
1. Visible Hooded tops under school jumpers are not acceptable uniform.
2. Dark or navy scarves are encouraged and should be worn.
3. White socks must be worn under tights/leggings.
4. Tracksuit pants are not acceptable uniform.

Josh Walker, Seeding Contractor, Dean Drayton, Spray Contractor, Kurdeez Lime for 500kg donation of lime (check out these dusty photos) James O’Brien, Landmark Timboon, motorbike and spreader provider, Landmark Timboon, loan of spreader. Upper Murray Seeds, allowing Chris Harkness the time to help out on this project. The following seed companies for providing the seed free of charge. Stephen Pasture Seeds, Ballarat, Seed Distributors, Adelaide Seed Force, Shepparton Heritage Seeds, Melbourne

WE NEED YOUR HELP!
On Sunday the 2nd June at 10:00am our VET Agriculture students will be erecting a farming fence on the precinct. We are looking for assistance and people who have extensive experience in farming fences. If you are interested in assisting please contact me at the school Ph: 5598 3381. Resources we require are: Wire Spinner General fencing tools – hammers, strainers, pliers, etc Chainsaw for trees at south end.

Encouraging dads to connect

Often, mothers are the primary caregiver, so children will rely on them for many of their day-to-day needs. But dads are important too – in fact, fathers who are involved with their children bring positive benefits that are unique and special.

Research shows kids who have a solid relationship with Dad get along better with siblings, have better social skills and experience less emotional distress. Father involvement from birth and through childhood is positively linked with children’s overall life satisfaction and wellbeing. What’s more, getting involved is great for dads. Fathers who are connected with their kids are more likely to feel satisfied with their lives, enjoy greater marital stability and have a strong sense of how important they are to their kids.

But the father-child relationship is more than kicking the footy in the backyard, and many dads find it tricky to balance fatherhood with work commitments. Some fathers are especially challenged because they are shift workers or don’t live with their children. Plus, fathers can feel disconnected from their children’s lives because they may be confused about their role.

Getting involved, even in small ways, helps dads develop healthy relationships with their kids. For dads who work long hours, do regular shift work or don’t live with their kids, it’s important to make the most of the time you spend with them. Try these strategies to connect with your kids:

- If you’re gone when your child wakes up, leave them a note or give them a call. If you’ll be gone when they go to sleep, give them a call in the afternoon or before they go to bed.
- For small children, give them something that belongs to you that they can hold, sleep with or smell.
- If you’re going on a work trip, tell your children how long you will be gone for and what you will be doing. Look at a calendar with your children so they can countdown to when you are home, and while you are away send postcards or stay in touch with Skype.

And remember: ‘Believe you can and you’re halfway there’.

SEAN FITZPATRICK
ASSISTANT PRINCIPAL
What a huge success Education Week was for our school. Thank you to the many families who made time to come and join us in the many activities offered over the week. The selection of experiences highlights for our community the breadth and depth of education experiences that are offered here at Timboon P-12 School. We sent students to The Warrnambool Eisteddfod for ‘Choral Speaking’ and ‘Poetry Reading,’ along with our ‘District Cross Country’ representatives, who so capably ran in Noorat on Wednesday, our grade one and two students ventured to ‘Fairy Park’ as part of their studies, and then of course our ‘Taste of Secondary Education’ on Friday saw our Year 6s step up into senior style education via a day in the High School. What a busy action packed week! But just a sample of what we do here each week.

ANDREA TAYLOR
ASSISTANT PRINCIPAL

PHOTOS AVAILABLE AT THE OFFICE
Photos of 2013 School Captains, House Captains, SRC representatives, VCAL group and the Year 12 ‘muck up’ photo are available for viewing and ordering at the school office. $10 each

Parent Group For a New School.

As concerned parents we would like to form a committee to lobby the government to have Timboon P-12 School rebuilt. Rosalie and the staff have done a wonderful job pushing this issue at every opportunity and we think it’s time as parents we leant our support to this cause. As such we would like volunteers to assist in forming a committee to decide a course of action. If you are interested in joining this group please leave your details at the school or contact Sharon on 0408236945.

Donations for Vietnam:
On the Vietnam Camp in June we are taking AFL Footballs to donate to the kids in Vietnam. We are asking for Donations of second hand Auskick balls and Pumps. The AFL has kindly donated 20 new Auskick balls but we would like some more and we desperately need some pumps as the balls will be taken over deflated. Any donations can be left at the General Office or given to Nigel Mottram. Thank you

 SRC Fundraiser – Friday 31st May
Diabetes Research and Coins for Kids

Hey guys, the Month of May is the month of Jelly Babies and we'll be donating to Diabetes Research! On Friday the 31st of May with the help of the Lions Club, the SRC is having a big fundraiser day! We'll be selling Jelly Babies, having a barbecue and making a massive line of coins on the tennis court! We want you to dress up in your best rainbow coloured clothes.

We're sure you want to know a bit about this though. Well the Diabetes Research Centre is a group trying to find a cure for diabetes and help those being diagnosed with it. The jelly baby donation is for Juvenile Diabetes and will be helping many of the children in this area.

How you can help:
- On Friday 31st May some of the students will be selling jelly babies at lunch and recess for $2.
- The barbecue run by the Lions Club on Friday 31st is a donation of 50c and up.
- To dress up in your bright colours you need to donate $1
- Place your spare change, it doesn't matter if they're not gold, in the collection jars around the school. There will be collection jars at the Library, the Office and the Cafeteria as well as the Primary School Class Rooms.
- On Friday come and participate in laying out the coins for 'Coins for Kids / Diabetes Research' on the tennis court

Thank you and we hope you have a happy month.
Annelise Henderson for the SRC
Today's topic is Glass
When I put glass in a tech spot, most people would think I've lost the plot, but surprisingly I haven't.
When you think of glass, the first thing that comes to mind is a window or maybe a glass bottle, quickly followed by the shattering of breaking, certainly not technology except for a computer or iPad screen. We may even give some credit to the fact that tablets and computers are becoming touchscreen which makes the glass feel a little “smarter”.
The fact is, our future world will involve more glass then you could ever imagine. There is actually a “glass race” going on for companies to produce the strongest and most useful glass.
Corning looks like they are winning the race at this stage and have invented what they call Gorilla Glass, and is the closest thing ever seen to unbreakable glass.
If you want to understand why glass breaks and how they reduced the amount of breakages go to the following website http://www.corninggorillaglass.com/#the-science
Most of us really just want to know “how will this change my life?” and the answer to that questions is “lots”. At the end of this article I have placed a Youtube link from Corning about the future of glass, I strongly recommend taking a look, I found it fascinating. It shows where they believe glass will take us to in the near future. The video shows the life of a family going about their “normal” day.
The video highlights the possibilities of technology and removes the old school ideas we have about glass. It shows how tablets will integrate our everyday life and connect to the surroundings like the wardrobe (I said you need to see the video) and this modern house had no curtains, but rather the windows changed colour and blacked out at night.
Even the family car dash was all glass (and could be safer than the plastic we use now which in an accident can splinter) and could change the look to suit whoever is in the car.
Schools and work places were the big winners allowing for incredible connectivity and sharing of data and virtual work places such as an operating theatre made completely of glass.
Glass is very easy to clean and can easily reflect an image, hence the reason we use it on computers and tablets.
I think the biggest thing going for glass is it is clear and allows us to see right through it, but can be manipulated with colour and images. This allows the viewer to simultaneously look at several images at once whilst looking through the glass at a static background (wait ‘til you see the school trip to the zoo).
Even our home furniture will change, in particular the TV will be replaced with a glass wall that will be coloured the same as the other walls and become a giant screen connected to a tablet for control. Computers are just about a thing of the past now, any wall is just about a giant tablet.
And remember this is only the beginning. Anyone as old as I am can remember at school the greatest technology was a large calculator (You younger ones can stop the old jokes now, you may remember at school the greatest technology was a large calculator (You younger ones can stop the old jokes now, you may remember at school the greatest technology was a large calculator (You younger ones can stop the old jokes now, you may remember at school the greatest technology was a large calculator (You younger ones can stop the old jokes now, you may remember at school the greatest technology was a large calculator (You younger ones can stop the old jokes now, you may remember at school the greatest technology was a large)

The big question is what has really changed in the past few years? What is the future of glass?

Tickets are available at the school office.

**REPORT ABUSE**
TSPA MINI MINUTES

Mother Day stall: Thank you to all our students in P-6 who supported our stall, it was one of our best results for profits. We hope to see your enthusiasm for our father’s day stall in September.

RECIPE BOOK:

- Recipes to be emailed on the address below or handed in at the school office ASAP. We have made a great start to collect recipes, and would love to see some competition entries as well.
- **Competition one** is to name the book. **Competition two** is to submit a photo that could be used on the front cover. These are open to Timboon school students only. **Competition three** is open to all who submit an order form with the most books ordered on it. In the event of more than one having the same amount, those will be put into a pot and one will be drawn out the winner. There are three competitions and there will be a prize for the winner in each.
- Advertising space is available for local business, at $50 for half page and $100 for full page advert. Please email adverts to the address below.
- **By the end of term two we will collate the orders, recipes, competitions etc.** And will be able to update you in regards to progress. We would like to have what we need by then, so we have time to put the book together for print and delivery well before Christmas.
- **We may have to source another publisher as the original may not work out due to technical changes to their site and upgrade of their program which they cannot guarantee will be usable in time for our schedule.**

Next Meeting: 17/6/2013 at school admin building at 7.30pm. All are welcome to attend.
Anne Rosolin (secretary) mob 0409029464 or rosolin@activ8.net.au

TRIVIA WITH A TWIST

Come along, test your knowledge and enjoy a night out full of fun and entertainment ... And the best part is ....

It’s a Community Fundraiser To Support Local Families In Need

** WHEN ** —Saturday 1st June
** TIME ** — 7:30pm start
** WHERE ** — Timboon Rec Reserve (footy club)
** COST ** — $10 per person

AUCTION ITEMS AVAILABLE ON THE NIGHT
Tables of up to 10 people may be booked at Timboon Recreation Centre or contact Sarah 0437877408 to book or for more information.
Individuals welcome — no booking necessary
Drinks Available at Bar Prices, Please BYO Nibbles
Supported by the Timboon Demons.

Level 2 First Aid Course
Saturday 15th June
Full course $180 Refresher $130

TRY A CAREER EXPO. SW TAFE SHERWOOD PARK CAMPUS - One of the biggest challenges for a young person is how and where to commence their career journey. The try a career expo on Friday 31st May at the SWTAFE’s Sherwood Park Campus gives the opportunity for our Year 9s to try ‘Hands on activities’ and talk to people involved in careers and to find out where to learn more. Over a 90 minute period, students will have the opportunity to experience three different hands on experiences. A bus will take the students to Sherwood Park on Friday 31st of May. They will be there from 11:20 until 12:50. Students make their choices at school and will be given an individual timetable.

LAW AT MELBOURNE UNIVERSITY – Melbourne Law School is hosting a one-day JD showcase designed for school students interested in pursuing law at university. Attend classes on things like: ‘So sue me!’, dispute resolution and criminal law. When: 9.30am-3.30pm, Wed 3 July; Cost: Free (incl lunch). Register: www.law.unimelb.edu.au/ad/future-students/information-for-school-students.

WHAT IS MECHATRONICS? Mechatronics at the University of Melbourne integrates mechanical, electronic and software engineering, offering graduates well-paid career opportunities in diverse fields like aeronautics, robotics, energy and biomechanics. Graduates work on the development of ‘smart’ products and systems such as computer-controlled robots, washing machines, automotive equipment, medical imaging systems, wind and wave generators and hybrid and electric vehicles. See: www.eng.unimelb.edu.au/study/graduate/master-eng-mechatronics. Mechatronics engineer-ing is also offered at Deakin, Monash, Swinburne and RMIT universities, and at Chisholm and Sherwood Park TAFE. You will need to study VCE 3/4 Maths Methods for all the university degrees, and some require chemistry or physics as well (eg Monash). Specialist Maths would be very valuable. NOTE: La Trobe University is offering mechatronic engineering from 2014 (subject to approval).

CHECK OUT RMIT – RMIT is conducting ‘Experience Days’ in the next school break. What’s on?

• 1 July – accounting and finance; fashion and textiles
• 2 July – community justice; electrical and computer engineering
• 3 July – aerospace, mechanical and manufacturing engineering;
health and medical sciences;
• 4 July – advertising, marketing and public relations;
environment
• 5 July – computing and IT
To get more information and to register go to: www.rmit.edu.au/experiencedays.

SCIENCE IN THE CITY – LAB TOURS – Science at RMIT is about providing practical solutions to real world problems. Students and parents can visit RMIT’s state-of-the-art learning laboratories and see first-hand the broad range of equipment and facilities that discover science at RMIT. When: 11am-1.30pm, Tues 2 July or 2-4.30pm, Wed 25 Sept; Register: www.rmit.edu.au/appliedsciences/discover.

MEDICAL LABORATORY VISITS – RMIT is offering hospital laboratory visits so you can experience life behind the scenes. Covering laboratory medicine and nuclear medicine, the sessions are held at major teaching hospitals. When: Mon 8 – Fri 12 July; Where: see list at registration: www.rmit.edu.au/appliedsciences.

A CAREER IN ICT? Interested in IT but unsure of course and career pathways? Then what about attending the ‘My Direction’ student conference? Aimed at Year 9-12 students, you will find out about learning and career possibilities, about courses, prerequisites for upper secondary and tertiary study, and hear from an industry perspective. Senior students will also be able to attend exam preparation sessions. When: 30am-1.30pm, Tue 12 June; Where: RMIT Sun時 MEL, Building 80, 445 Swanston St, Melbourne; Register: www.vitta.org.au/events/event/my-direction-vitta-student-conference.

LA TROBE UNIVERSITY NEWS – La Trobe is introducing three new degrees in 2014:

• Bachelor of Engineering (Melbourne campus)
• Bachelor of Exercise Science (Melbourne and Bendigo)
• Bachelor of Mechatronic and Robotic Engineering (Melbourne)

Some wonderful new buildings have opened at La Trobe recently. The Centre for Agriculture is a $288m facility with state-of-the-art resources; around 450 scientists will work in this building researching things like agriculture production, pest control and infection control. The new Institute for Molecular Science building is used for research and teaching biochemistry, chemistry, genetics, plant biology, physiology, physics and molecular archaeology. Anyone considering studying science and health will be wise to keep La Trobe in mind for Research Areas that La Trobe is concentrating on are: securing food, water and the environment; sport exercise and rehabilitation; building healthy communities; population movement and human security (international development, refugees, pandemics, etc). Many of La Trobe’s disciplines have been rated among the world’s top 100 in the latest QS World University Rankings by subject. The rankings evaluated 2,858 universities. Sociology came in at 43, placing La Trobe in the world’s top 50 most elite institutions. In communications and media, history, education and linguistics, La Trobe was ranked in the top 100 world universities.

EXPERIENCE LA TROBE – Students and parents are again invited to ‘Experience La Trobe’. Find out what you is it is like to be a student for a day. Explore courses, meet staff, see facilities, and get your questions answered. When: Mon 12-20 July; Register: When: Melbourne (Bundoora) Wed 10 July, Bendigo: 12 July; Register: www.latrobe.edu.au/experience; free, with lunch and entertainment supplied.

MONASH UNIVERSITY NEWS –

• The Faculty of Arts – introducing a new course structure in 2014. The changes are designed to give students a deeper understanding and appreciation of the area in which they specialise. Major emphasis will be on how to apply their knowledge and to develop research skills. Three categories of study will be introduced to complete a ‘major’ – gateway, cornerstone and capstone. These are chosen key subjects which must be taken in a student’s major area of study. Join the Arts Facebook page at: www.facebook.com/MonashArts.

• The Bachelor of Architecture/Master of Architecture has a new entry process from 2014. There will be a pre-selection activity and an interview, and the maths prerequisite will be removed. The ATAR will still be important but the pre-selection activity and interview will provide additional ways for you to demonstrate your ability. In the pre-selection activity you will respond to an issue through text and image (not about assessing design or drawing expertise). The interview is a chance to share your story and to say why you want to study architecture. After applying for the course in Term 3 through the Victorian Tertiary Admissions Centre, you will receive a pre-selection activity to complete. Based on this, you may be invited to an interview. Your application will be assessed on your ATAR, pre-selection activity and interview performance. See: www.artsci.monash.edu/architecture/news.php.

• Information Technology – the Computer Games Boot Camp is on again this year. It is a seven-day event for Year 9 -12 students to experience everything connected to computer games and IT. Learn from experienced industry professionals, talk to like-minded individuals and expand your networks. Workshops, tournaments, presentations and activities will take place. Who: students interested in becoming IT professionals, building and designing games, multimedia and simply playing games; When: Sat 6 - Fri 12 July; Where: Clayton campus; Register: http://cgbc.infectech.monash.edu/.

• Bachelor of Medicine/Surgery – all interviews for entry into Monash University’s MBBS program in 2014 will be held in January 2014. In the past, most interviews have been held in December with a small number in January. Students will be offered an interview based on their UMAT results and a selection interview (not an interview). VET OR KEEPER FOR A DAY PROGRAM Healesville Sanctuary and Werribee Zoo are holding holiday programs once more. See: www.zoo.org.au/holidays Drew Deppler 55933381
Parent Opinion Survey.

It is now coming on one semester since the BYO Device model has been in place at Timboon P-12 school.

Students, staff and parents have embraced this new technology with much enthusiasm. Staff are constantly trying to improve the way students learn and the BYO device is a direction most schools are going, ours included. We want to know how you feel about the introduction of this technology and hope you can spend a few minutes answering a short survey to give us some feedback.

Section 1.
   a) What year level is your child/ren in? P 1 2 3 4 5 6 7 8 9 10 11 12 (please circle)
   b) Does your child have: iPad Tablet notebook – school or BYOD - No
   c) If NO do you think you will in the future? Yes No because ______________________________

Section 2.
If you chose Yes to b above:
   a) Does your child bring it to school most days? Yes No
   b) Are you happy with the security of the device? Yes No
   c) Do you think your child uses the device enough at school? Yes No
   d) Do you understand the device well enough to assist or control your child? Yes No

Section 3.
If you chose no to any in section 2:
   a) Why doesn’t your child bring the device to school on some days? ____________________________________________
   b) What do you think could improve security? _____________________________________________________________
   c) What would you like to see change? ________________________________________________________________
   d) Would you like the school to offer more help for parents to understand the technology their children use? Yes No What sort of help would you like? ____________________________

Section 4.
Is there anything else you would like to share with us?
__________________________________________________________________________________________________________________________________________
__________________________________________________________________________________________________________________________________________
__________________________________________________________________________________________________________________________________________
__________________________________________________________________________________________________________________________________________

Section 5.
This survey is by default anonymous unless you want us to respond directly to your questions. If you want us to answer your query please write your name and best contact and details of what you would like to know below or email terry@timboonp12.vic.edu.au.
Thanks for your time,
Terry Hawkins
