PRINCIPAL'S REPORT

Thank you everyone for your support and engagement with our school community this year. It has been rewarding to look back over the year. I have been blown away at the many activities, events and learning opportunities that our students have experienced, made possible through the hard work of our teachers and education support staff. Our school publication Baringa is in its final editing stages and after having had a sneak preview, I am looking forward to sending home these visual memories and student reflections on our 2023 school year.

I encourage you to carefully read our final school newsletter for 2023 which contains important information for the end of year organisation as well as some key dates for 2024. Formal classes will conclude on Friday 15th of December with our P-6 (11:30am) and 7-12 (2pm) final assemblies to be held on this day. School will finish at the normal time of 3.30pm on this Friday. There are no formal classes on our environmental days - Monday 18th and Tuesday 19th of December. Final buses will run on Monday 18th December.

Farewells

I would like to pass on my thanks to the following teachers and education support staff who are leaving us at the end of 2023. They have contributed in many ways to the education and support of our students and school community. We wish them all the best in their next phase as they embark on a range of different opportunities and adventures.

- Carly Burnett
- Wes Hollick
- Brook Hallyburton
- Rocky Blair
- Peter Lee
- Jayde Alexander
- Simon Harkness
- Lara Mungean
- Kate Wells

We also have some staff taking leave next year and wish them well with their plans for 2024.

- Katherine Fox
- Jenny Evans
- Sarah Whitworth

I would also like to acknowledge the school families who are leaving us after their final year 12 children have now graduated. For many their association with the school has spanned decades with one family being here for the past 28 years. Among this group is our current school council president Bronwyn Lenehan who I would like to thank for her contributions to the council and other committees in her time here.

2024

Looking toward next year, I would like to welcome some new teachers beginning in 2024:

- Jaye Dickinson
- Jorja Sharp
- Gail Higgins

We would also like to welcome back staff returning from leave:

- Emily Hickman
- Ellen Podbury
- Dean Whitehead
- Claire Opperman (from Term 2)
- Vanessa Howard

At the beginning of 2024, Staff return on Monday 29th of January. On Tuesday 30th January we are inviting all parents/carers and students to attend a 15-minute Welcome Interview with their primary classroom teacher or a key secondary teacher. A letter will be sent home shortly with more details and I encourage all families to take up this opportunity to set up the learning and school year for their child/ren.

Normal classes for Grade 1 to Year 12 begin on Wednesday 31st of January (preps start Thursday). Please put these dates and times into your diaries for the beginning of next year.

I wish everyone a safe and restful break over the summer holidays!

MATT DODSON
PRINCIPAL

Invitation to Award Ceremonies on 15th December

P-6 Award Ceremony Friday starting at 11:30am. We plan to have it outdoors again, so don't forget to bring along your comfy camp chair and a sun hat. Following the Assembly, you are invited you to stay and enjoy a sausage from the BBQ (free) for lunch or bring a picnic to share with your child/ren.

Year 7-12 Awards Ceremony at the Timboon P-12 School Hall, 2.00-3.30pm. All students and parents are invited to attend with awards and presentation from Year 7-12 including School and House Captain Presentations, VCE area awards and Year 12 dux for 2023. This will be a great celebration of student achievement in 2023.

ASSISTANT PRINCIPALS' REPORTS

As we approach the final weeks of Term 4 it is a really important time for students and staff. It is an opportunity for students to showcase their learning from Semester 2 in final common assessments tasks (CATs) and exams of 2023. Year 11 and 10 students will have had the opportunity to trial their subjects for 2024 and been provided with holiday homework to get a head start into their studies for next year. Make sure you take advantage of the fantastic education on offer and focus on your pathway.

Students and parents of students studying VCE have received an email and login for your child to Edrolo. This is an online tool that we use in most VCE classes as an additional resource, on top of teacher and class time and subject textbooks, for students to access subject content for pre-learning, new learning, consolidating understanding and revising subject content. Our aim is to give students a wide range of resources to allow the very best achievement for every student. Teachers will be setting regular work to be completed on this online platform. All students have open access until December 12th, after this time payment of \$36 per subject will need to be paid for ongoing access.

Year 12 exams have been completed and we had a great night on Friday 24th November at the Year 12 Graduation Evening with students and parents celebrating the end of their schooling at Timboon P-12 School. I would like to thank the families whose children finish school, and this ends their association with our school. We are appreciative of all the support our families offer our school and wish all families and students the very best in the future.

Our Year 10 students, all 40, have been on Work Experience last week and staff have been in contact with all employers over the week, getting positive feedback about the great work they have been doing with positive attitudes. Huge thanks to Mr. Shanks for all his efforts preparing and organising all students into placements of choice. Students will return to school next week to reflect on the world of work and finalise work for year 10. Year 10 final day will be Wednesday 6th December.

Year 8 and 9 students have selected electives for 2024 including Year 9/10 electives, VET (Vocational Education and Training) subjects and VCE Subjects. If any student or parents has any queries or questions, please contact me at school before the end of the year.

The Year group is out on camp with Mr. Dennis, Mrs. Mutton, Mr. Venn, Mr. Marshallsea and Lara Mungean. They had a wet start to camp but have now resumed activities and are having a great time. Body boarding, canoeing and raft making, zipline and mountain biking.

December 11th-15th will be Activities week and we have a full program of options for students over the week. Activities will go out to student to sign up for sessions on Monday 4th December.

Year 6 to 7 Transition days will be on Tuesday 12th and Wednesday 14th December with 39 students participating in a full 2-day program. Students will get a taste of secondary school and meet classmates and teachers for 2024.

Year 7-12 Awards Ceremony will on Friday 15th December at the Timboon P-12 School Hall, 2.00-3.30pm. All students and parents are invited to attend with awards and presentation from Year 7-12 including School and House Captain Presentations, VCE area awards and Year 12 dux for 2023. This will be a great celebration of student achievement in 2023.

GABBY THEOLOGOUS **7-12 ASSISTANT PRINCIPAL**

It is hard to believe that we have reached the end of another year. As we continue to wrap it up, we also are looking forward to what 2024 brings.

Breakfast Club continued to be a popular weekly Wednesday activity and was very well supported by students of all ages. This will continue next year through the Department of Education funding program. Thanks to Cheryl Miller for all her organisation of this program and to the Terang and Chitticks bakeries for their kind donation of bread each week. We go through an amazing 14 loaves each week in toast, let alone the extra loaves of cheese sandwiches for the Secondary.

Once again, we were spoilt by the work Andrea Vallance does in her role as TAP coordinator with making connections to our community and organising events and guest speakers. Next year the focus is on volunteering and the many services that rely on volunteers. Have you considered being a volunteer in the community?

Year 6 Band's lessons conclude this week and each band will perform on Thursday, during the lunch break in the School Hall. Everyone is welcome to drop in and rock along. Thanks once again to Bands teacher, Mr Peter Sharp.

Tuesday 12th December is the statewide transition day. All students in Prep to Year 6 will spend the day in their 2024 classroom, with their new classmates and teacher. The day will run like a normal school day, with students expected to be in School uniform. On Wednesday, the 2024 class lists will come home in a sealed envelope with the youngest sibling at school. Whilst we are open to special requests, please understand that a lot of teacher time and careful consideration has been given to academic spread and friendship groups as requested by students. I encourage you to call me if you have any queries.

Friday 15th December is our P-6 Award Ceremony, starting at 11:30am. We plan to have it outdoors again, so don't forget to bring along your comfy camp chair and a sun hat. Following the Assembly, you are invited to stay and enjoy a sausage from the BBQ (free) for lunch, or bring a picnic to share with your child/ren. After the lunch break, the Year 6s, staff and parents will showcase their boot-ball skills and compete in a friendly game for the Jack Clements cup. This is the final day of classes for all students, with the day finishing at the normal time of 3:30pm.

Literacy and Numeracy will again remain focuses of teacher Professional Learning in 2024 and we have two groups involved in Network Learning Communities. Liana Brown, Julia McMeel, Claire Watson and myself will lead professional development in our respective teams around Literacy improvement, including Sounds Write, updating our skills in teaching reading and embedding the 6+1 Writing traits work from the last couple of years. Our Numeracy team of Josh Frederick, Tylah McGrath, Claire Watson and myself will look to unpack the new Victorian Curriculum 2.0 in Mathematics and continue the work Claire started this year around the 'Big Ideas'.

Booklists have been finalised for 2024 and families are encouraged to order through Darrien's Office supplies (darrian.officechoice.com.au). There is a flier attached to the newsletter and it will be posted on Compass. Please note that all **online orders must be placed before 4.30pm Friday 12th January 2024** to ensure we have sufficient stock for all orders. Packs will be able to be collected on Monday 29th January from the School hall. Please note that **we expect everything on the booklist to be brought to school on day 1 of 2024**. We will store the 'extra' supplies in a named snaplock bag for students to access as required throughout the year.

Our calendar for the remainder of this year still looks busy, with some important dates for you to note:

Wednesday 6th December - P-6 Assembly, 10:20am start (hosts Prep B class). It's also a JSC, **out-of-uniform day with a Christmas theme**.

Wednesday 6th December - 2024 Prep parent's information session, from 9:30am in the Library

Friday 8th December – Year 6 Campout/Sleepover

Monday 11th December – Year 1-2 excursion to the trains in Cobden (event is on Compass)

Tuesday 12th December – Statewide Transition Day

Wednesday 13th December – Year 6s will spend a second day in the Secondary School.

2024:

Monday 29th January – staff return & stationary pack order pick up from the School Hall

Tuesday 30th January – no classes. Parents and students will be asked to come in to meet with the classroom teacher. A letter with times and further details will come home this year.

Wednesday 31st January – all students (except Prep) will start classes. Prep testing.

Thursday 1st Feb – Preps will start classes.

School Photo Day - Friday 1st March.

Looking forward to seeing as many of you as possible at the Awards Ceremony on Friday 15th December. Otherwise, please have a wonderful Christmas and safe New Year.

GILL HAMPSON

P-6 ASSISTANT PRINCIPAL

Prep News

As we draw closer to the end of our youngest students' first year of school, we have been reflecting on just how far they have come. Socially, emotionally and academically, we have seen growth in all our students this year.

This term, our preps have been growing grass heads and beanstalks, learning to tell the time, skip counting by 5s and 2s, practising our reading fluency, writing longer and more detailed pieces of writing and wrapping up their Sounds Write learning for the year.

A couple of weeks ago we visited the Heytesbury District Landcare Network and Berry World to further explore how plants grow. Thank you to all involved for making it such a memorable day.

Last week, Prep A held the huge responsibility of hosting our P-6 assembly, and they did a fabulous job! Prep B will host next week so make sure you come along to cheer them on.

The preps also started their school swimming program this week. Thank you to those parents who have offered to their assistance.

Year 3/4 Flagstaff Hill excursion

Last week, our Year 3/4 students took a step back in time as we visited Flagstaff Hill in Warrnambool. During this term we have been studying the theme, First Contacts, and have been learning about the first examples of European contact and settlement in the place that we now call Australia.

While visiting Flagstaff Hill, Jan taught the students about the history of the whaling industry in our local area. The early whalers were the first Europeans to establish settlements along our local coastline. Doctor John also gave the students an experience of what it must have been like for the early Europeans, as they travelled for many months on board tall ships to reach Australia.

The first-class passengers were certainly treated better than the poor people down in steerage.

We had a wonderful day and our visit helped to give us a local perspective on European settlement in our area.

Melbourne Camp

I thought that the Melbourne camp was awesome. We got to see lots of amazing places such as the war museum (Shrine of Remembrance), Old Melbourne Gaol, Eureka Skydeck, Artvo, Melbourne Zoo, MCG and the Australian Music Vault. We all went to the Queen Victoria Markets and all the boys bought sunnies. My favorite place was up high at the Eureka Skydeck in the glass box.

I thought that camp was fantastic!

By Joseph Hider

Eureka Skydeck – Melbourne Camp!

On the first day of Melbourne camp, after going to China Town for dinner, our group went to the Eureka Skydeck 'on the edge experience'. In our opinion, the elevator ride was scarier than going on the actual 'Edge Experience'! To get to the edge, we had to go on a very quick elevator ride that took us up 82 floors going 9 meters per second and it is the fastest elevator in the entire Southern hemisphere! At the top there were a few pairs

of 'binoculars' that zoomed in 20x80 meters so that we could get a close-up view of our surroundings! Inside the actual glass box of the 'edge experience' there were loud sound effects and the glass fogged up and then cleared which scared a lot of people! Some people even laid on the floor of the box which cracked more people up! At the end of each session in the box on the edge, each group got a photo taken which was on display at the reception of the building! All in all, the Eureka Skydeck experience was very fun!

By Willow Gronbeck and Maria Dela Cruz

Our Camp

We are on the bus on our way to Melbourne. For some it was the first time ever. The buses stopped and everyone piled out and grabbed bags to take to our hotel for the next two nights. We first went to the Shrine of Remembrance which was to honour the soldiers fallen in wars all around the world. After we finished, we stopped for our home packed lunch. We left the shrine and visited Artvo where we explored the place taking photos which looked real for 2 hours. We left to go to the accommodation to get settled in until we went to Chinatown for tea and after that visited the Skydeck. The majority of us went out on The Edge which was a glass box 3 meters away from the building to look out over all of Melbourne. We went back to the apartment exhausted and into bed. After breakfast we visited the Queen Victoria Market where we spent our \$40, then off to the Old Melbourne Gaol for a tour until we had to leave to go to the MCG for a full tour of the building. It was the coolest place I had ever been. There was even a red chair for the furthest 6 ever hit on the ground. Next is the Music Vault that showed all the most famous Australian singers/bands. After another hard days work, we sat around and watched the super Mario Bros movie and even some cricket world cup. The third day was the zoo and it was the coolest zoo I had ever been to. My favourite animals were the seals because you could go under the water and watch them frolic around, although I didn't like the snakes because they were lazing around.

By Sacha Blain.

Digitally creative farm safe messaging

There's an old saying, "you know you know something when you can explain it to someone else!" To reinforce the farm safety messages our Year 5/6 students have been hearing, and to learn about digital technologies, animation and storytelling, we invited Gareth Colliton and Alex Francis from One Day Studios into our classroom. Gareth described the educational and skill-building opportunities that One Day Studios provides for digital creatives at their digital arts and technology media hub under the Silver Ball in Warrnambool such as producing cartoons, illustrations and movies like Mabel and Stitch. Students reviewed the storyboard ideas they had considered to share

farm safety messages and decided on their sets and what assets, such as vehicles or people, needed to be created for their movies. Figures and props were then crafted from foam or fabric sheets, paper and foam clay to use in their dioramas. Next week Gareth and Alex will return to help complete the details and outline how to shoot the animation. Can't wait!

Call. Push. Shock

Today our Year 7 Health students were familiarized with "Shocktober" and the Call Push Shock kits that were created in partnership with the Heart Foundation and Ambulance Victoria. Bree, Andrea and Rob introduced themselves and their roles with Ambulance Victoria as members of a Community Emergency Response Team (CERT), Ambulance Community Officers (ACO) and a trainee paramedic. After a quick quiz review of the dangers of vaping and revision of DRSABCD, the students were introduced to the Chain of Survival so that could develop the skills and knowledge to help in a medical emergency. Amongst numerous challenges, they had to demonstrate checking for danger, checking for response, and checking for breathing. These skills were designed to build confidence and capability to recognise a cardiac arrest and take the lifesaving action of calling Triple Zero (000), starting Cardiopulmonary Resuscitation (CPR) immediately and shocking with an Automated External Defibrillator (AED). Students learnt that if a patient is breathing, the Triple Zero call taker may ask them to roll the patient onto their side recovery position. The take home message was that anyone can save a life in 3 simple steps: Call, Push, Shock • Call Triple Zero (000). • Push hard, push fast, on the chest between the nipples. • Shock using an AED.

The TAP was definitely On in 2023!

It's not often you see #FarmVR or #FarmAR, opposite a tram conductor, near Royal chooks, with a tractor and bandicoots, calves, SES scenarios, horses, or a fire truck, in the proximity of a dog vs drone challenge or a FarmBot encounter juxtaposed with BBQ smokers or a potential biosecurity outbreak whilst doing a water bug boogie, before being told numerous Duck Tales or a Story of a River. That doesn't even include the versatile vegies, transitory rock stories, indigenous collages, camembert comparisons, GPS cows, Arduino achieves, workplace communication challenges, or AI exercises. Our 2023 TAP's On! curriculum expo had it all, and even more for students, teachers and visitors. Just over 450 students from Timboon P-12 School and Simpson Primary School participated in a series of peer lead workshops held at Timboon on Thursday in a celebration of the exciting curriculum based around agriculture and community at Timboon P-12 School. Jess and Cameron from THINK.DIGITAL were our feature guests and they shared numerous immersive and interactive technologies that highlighted the role that digital technologies can play to inspire, engage and teach people more about the potential of agriculture. Children from the Timboon Kindergarten and the Kardinia Learning Centre explored our curriculum workstations visiting a range of activities around the School campus. Students also enjoyed FM Milk from Saputo, Stringers courtesy of Bega and Mainland Cheese portions from Fonterra. After our main workshops, and as an extra activity for our Preps and Year 3/4 students, they were visited by Roberto from The Connies who shared a range of cards and stories featuring local flora, fauna and biodiversity stories. The TAP in 2022-2023 was supported by the Gall, Lane, Jones, Uebergang and Vedmore Foundations with TAP's On! sponsored by Westpac Bank and the Secondary Schools Agriculture Fund (SSAF). Thank you to our wonderful student presenters, teachers, mentors, parents, visiting educators, industry and community guests for helping us celebrate TAP's On! 2023.

Growing well... bushes and berries

Now that they have a pretty good understanding of parts of a plant and how things grow, we decided to take our Preps out to see how this works outside the school grounds. The Preps walked to the Heytesbury & District Landcare Network's nursery where Michelle Leech, Lyndell Driscoll and Kate Leslie showed them different types of plants including trees, shrubs and grasses. After reviewing what plants need, Kate talked about the about the role of trees to provide shade, shelter, habitat, and the importance of a range of trees in a plantation. The fortunate Preps planted seedlings in pots including eucalyptus, tea tree, wattle, prickly moses and native grasses that they are going to plant on the school grounds. (It's a bit cool when your Grannie is one of the special presenters too!) At Timboon Berry World, Heather Nicholls talked to students about the strawberry plants and the students learnt that the strawberries grow from the flower buds and that the green caps are called calyx. Heather stressed the important role that bees play in pollinating plants

and that it was really important to keep the soil healthy to grow healthy plants. The lucky Preps were then able to pick the red ripe strawberries into tubs to be taken back to school and home for their families Thanks Michelle, Lyndell, Kate, and Heather for bringing our learning to life and to David Pope for donating the bus ride back to school for the excited, but weary Prep students.

Genetic gains through technology

To contextualise their classroom learning about genetics and genomics our Year 10 Science students undertook a field trip to Nick, Simone and Will Renyard's Meon Valley dairy farm. Students heard about the Renyard's career progression and inspected the new rotary dairy that was built to replace their 30 year old platform with an emphasis on using technology to increase both cow / worker comfort and ease of operation. The Renyard's mating program was summarised with an emphasis on using genetics to improve cow health, farm production and the importance of breeding an efficient, healthy animal. John Ryan from The Vet Group described how mating programs had evolved and the benefits of synchronizing herds to calve to suit the farm's feed profile. Embryo transfers were discussed as was the use of world class genetics to select sires, the potential of genomics to identify animals with the most potential in a herd and the use of sexed semen to ensure that potentially 90% of the calves would be female as technology has enabled this technology to be just slightly less reliable than conventional semen. The use of cow collars and apps linked to phones and their computer system was detailed with the collars sending data on cow mobility, health and fertility through rumination and activity sensors on the collars. Nick showed how this data was used to manage the whole herd health by sending alerts to identify individual cows that may become unwell, for example lame, not ruminating properly, ill or starting to calve. The most accurate feature of the collars is their ability to pick cows on

heat and draft cohorts of cows for mating. John then demonstrated how cows are preg tested with students being able to detect a foetal heart beat on a monitor. This field trip was able to reveal how technology is at the cutting edge of agriculture with an exciting, practical application of science and technology in our regional dairy industry.

Please contact Cheryl and join our team.

TIMBOON SWIMMING CLUB:

It's nearly summer and the Timboon Amateur Swimming Club starts soon at the Timboon pool. Our fantastic coaches are looking forward to seeing returning and new swimmers. Swimming club can help with stroke correction, technique, speed and fitness, but is not a beginner learn to swim program. Participants need to be able to swim a length (33m) unassisted. This season, sessions will run 4.30-6pm Tuesdays and Thursdays, starting 5th December. There will be 2 weeks for kids to have a 'come and try', and then swimmers will need to be registered as members of Swimming Victoria. Kids will need to bring goggles and flippers to sessions.

Any questions, contact Bobbie French on 0429872592.
